Triangle Wealth Management, LLC. helps individuals, families and business owners in the Nashville, Knoxville, Chattanooga and Tri-Cities Metro Areas by offering full financial planning, estate planning, investments and retirement planning assistance.

Q: need to convert list of objects from csv into list of objects I have a csv file which has millions of records. the problem is my purpose is to convert each row into an object, I have some methods to handle it, but I'm looking to improve this code. please some one help. here's my code: enter code here

```
public static List ImportData(string filename,
int length, string fileType, string delimiter) {
    System.IO.StreamReader fileIn = new
    System.IO.StreamReader(path);
    System.IO.StreamWriter fileOut = new
    System.IO.StreamWriter(path); List list = new List(); int
    x = 0; while ((x = fileIn.BaseStream.ReadByte())!= -1) {
    if (x == -1) break; if (x == delimiter)
    list.Add(parseDelim(fileIn, fileType)); else
    list.Add(parseValue(fileIn, length, x, fileType,
    delimiter)); } fileIn.Close(); fileOut.Close(); return list;
```
